The above-captioned matter pertains to our investigation of the Watergate affair. At 3:15 p.m. on 11/15/72, Joe Volz, a reporter for the "Washington Star-Daily News" telephoned Bishop and directed his attention to the attached item in "The Periscope" section of the November 20, 1972, issue of "Newsweek" magazine. He stated that his editors were "extremely interested" in this item, which indicates that the FBI's investigation into the above-captioned matter has produced new evidence of such a nature that Mr. Gray is considering steps to have it placed directly on President Nixon's desk and that the facts that Mr. Gray has are strong enough to spark a public statement on the matter by Mr. Nixon. Volz wished to know if Mr. Gray would make a comment concerning this item.

ST-115 REC-47 139-4089-1691
A check with the Accounting and Fraud Section of the General Investigative Division reflects that no such new evidence has been developed and this item, therefore, is not true.

RECOMMENDATION:

16 DEC 19 1972

That Bishop be authorized to inform Volz that Mr. Gray denies the truth of the attached item in "Newsweek" magazine.

THE PERISCOPE

MR. NIXON'S MAN AT THE PARTY

A key political decision for President Nixon will be his choice of the next Republican National Chairman. The current party chief, COP Sen. Robert Dole of Kansas, wants to stay—and has strong backing. Other party leaders, however, would prefer a full-time political pro with no other interests. They would also like a chairman from a big industrial state, as one way to hold the strong blue-collar support Mr. Nixon won last week.

THE NEW AMBASSADORS

Washington's big diplomatic guessing game is whether President Nixon will use political or professional criteria in naming new ambassadors. He has some prizes ready to hand out. Vacant or soon to be are Paris and Stockholm (last held by political appointees); Jerusalem and Moscow (currently filled by professionals). Present clues favor politics. Max Fisher, the Michigan millionaire who is one of Mr. Nixon's close friends and financial supporters, is reported in line for an embassy.

FENCE MENDING IN THE GOP FAMILY

The White House moved swiftly last week to soothe Republican feelings on Capitol Hill, offended by the President's failure to campaign harder for COP candidates. First, Mr. Nixon's top domestic aide, John Ehrlichman, telephoned Senate Minority Leader Hugh Scott of Pennsylvania to pass on his boss's instructions to "shoot down" rumors that Scott would lose his Senate post. The next day, the President himself called Scott with warm wishes on his birthday.

THE WATCH ON THE RHINE

U.S. troop strength in West Germany will stay within 10 per cent of present levels for the next three years, Bonn has been told very, very quietly by Presidential adviser Henry Kissinger. American troop levels are a most sensitive subject for German politicians, who had feared big cuts were in the offing.

OIL FOR THE LAMPS OF CHICAGO?

U.S. coal operators are fighting to keep the White House from switching some of their prime customers, the Midwest utilities, to the use of oil. The move is dictated by the new clean-air law, which by 1975 will cut sharply the high-sulfur emissions. The choice is either to change the

law (a tough political move) or to bring in "clean" low-sulfur oil from the Middle East. (It is now barred from the central U.S.) The move would mean massive trouble with the U.S. balance of payments. But supporters agree that it will be temporary—to give the utilities the time they need to perfect antipollution technology and methods of "gasifying" coal into clean-burning fuel.

ARAB VS. ARAB

Those recent battles between rival Arab guerrilla factions in Lebanon, in which some 30 were reported killed, were over money, according to intelligence sources. Libya's President, Col. Muammar Kaddafi, had given two leaders of Al Fatah, the biggest guerrilla group, more than \$1,000,000 as part of his program to finance their anti-Israel effort. The leaders, however, kept the money—and the reports say they are using it to unseat Yasir Arafat, top man in Al Fatah.

WATERGATE AND THE WHITE HOUSE

FBI director Patrick Gray is so exercised over new evidence produced by the probe into the Watergate bugging and other political sabotage cases that he is considering steps to have it placed directly on President Nixon's desk. The facts Gray has, insiders say, could be strong enough to spark a public statement on the matter by Mr. Nixon, who to date has largely ignored it.

NEXT, GERMAN SKYJACKERS?

West German security experts are braced for another skyjacking, this one completely divorced from Arab terrorism. They fear that German anarchists may take a leaf from the Arab book in an effort to free a dozen imprisoned members of the Baader-Meinhof group, whose reign of terror had Germany in an uproar last year.

JOB SEEKING AT JUSTICE

One Cabinet officer who wants to stay on for Mr. Nixon's second term is Attorney General Richard Kleindienst. To help his cause, he is drafting a blueprint for restructuring and refurbishing the Justice Department, proposing new approaches to such problems as prison drugs and legal aid. Working against Kleindienst are the enemies he has made among the White House staff and his reputation as a political operator, starting with his 1964 role as a manager of Barry Goldwater's Presidential campaign.

Nationwide survey of independent TV servicemen reports Zenith Color TV needs fewest repairs.

Here are the questions and answers from a 175-city survey of multiple-brand TV service shops.

Which color TV needs the fewest repairs?

Independent TV servicemen were asked this question because they are in a unique position to judge the reliability of different color TV brands.

Every major brand sold in the U.S. was included in this study.

The servicemen named Zenith most often as the brand of color TV which requires the fewest repairs. More than twice as many named Zenith (30%) as mentioned the second-place brand.

QUESTION: "In general, of the brands you are familiar with, which one would you say requires the fewest repairs?"

ANSWERS: Zenith	30%
Brand A	11%
Brand B	9%
Brand C	5%
Brand D	4%
Brand E	3%
Brand F	2%
Brand G	2%
Brand H	2%
Brand I	1%
Other Brands	3%
About Equal	21%
Don't Know	11%

Which color TV is easiest to fix when it does need repairs?

When something goes wrong with a color TV, being able to fix it easily means a lower repair bill.

Zenith is named more often in the survey than any other brand as being the easiest to repair. One-third (34%) of the TV servicemen report Zenith Color TV is the easiest to repair. A significantly smaller percentage (25%) named the second-place brand as the easiest to repair, and a much smaller percentage named other brands.

QUESTION: "In general, of the brands you are familiar with, which one would you say is easiest to repair?"

ANSWERS: Zenith	34%
Brand A	25%
Brand B	11%
Brand D	5%
Brand F	4%
Brand E	4%
Brand C	3%
Brand I	1%
Other Brands	3%
About Equal	18%
Don't Know	1%

Which color TV would you prefer to own yourself?

Servicemen know color TV from the inside out. So we wanted their opinion on which brand they would buy today for themselves.

More servicemen named Zenith as the color TV they would buy (35%), than named any other brand.

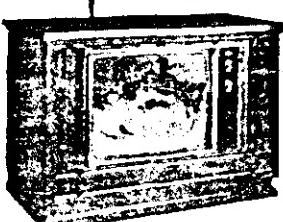

QUESTION: "If you were buying a new color TV set for yourself today, which brand would you buy?"

ANSWERS: Zenith	35%
Brand A	21%
Brand B	12%
Brand D	7%
Brand E	5%
Brand C	4%
Brand F	4%
Brand G	3%
Brand H	1%
Brand I	1%
Other Brands	6%
Don't Know	8%

NOTE: Answers total more than 100% because some servicemen named more than one brand.

How the survey was made.

One of the best-known research firms in America conducted this study of independent TV servicemen's attitudes toward brands of color television. Telephone interviews were conducted with TV servicemen themselves in April, 1972, in 175 cities from coast to coast. To eliminate the factor of loyalty to a single brand, the study included only shops which serviced more than one brand of TV. Survey details are available on request.

This is in response to question #3 by the Acting Director on the attached memorandum dated 11-15-72, T. E. Bishop to Mr. Felt, which states, "I am not aware that [] DJ has authorized us to investigate 'other political sabotage cases'...have they and are we?" *u*

To date the Department of Justice has not requested any investigation of political sabotage cases nor are we investigating any. *u*

On 10-17-72, the activities of Donald H. Segretti (a California attorney hired by Dwight L. Chapin, Deputy Assistant to the President) as related by Segretti to the Bureau on 6-26-72, and his alleged political harassment activities against the democrats as reflected in various articles appearing in the "Washington Post" were discussed with Assistant Attorney General Henry E. Petersen, Criminal Division. Mr. Petersen stated he was fully aware of Segretti's activities and does not believe such are in violation of any Federal statutes and accordingly saw no basis for further investigation of Segretti by the FBI. *u*

the FBI Laboratory is requested to complete the following examination. U

REQUEST OF THE BUREAU

The FBI Laboratory is requested to examine the external, physical characteristics which are present on the miniature FM transmitter recovered from the telephone of R. SPENCER OLIVER at the Democratic National Committee Headquarters, (DNCH), and the external, physical characteristics of the listening devices recovered during the "MC CORD" investigation to establish the similarities and/or differences which are present among all of the recovered items. This examination should be conducted in such a manner that will insure that none of the devices are altered or destroyed in any manner in order that the evidentiary value of all of these items may be maintained for purposes of prosecution.

The FBI Laboratory is also requested to identify any other examination which may be conducted by the Laboratory which will establish any further similarity or difference between any of the recovered devices. The Lab's comments should set out, if possible, when such examination may result in the alteration or destruction of the evidence should that examination be conducted.

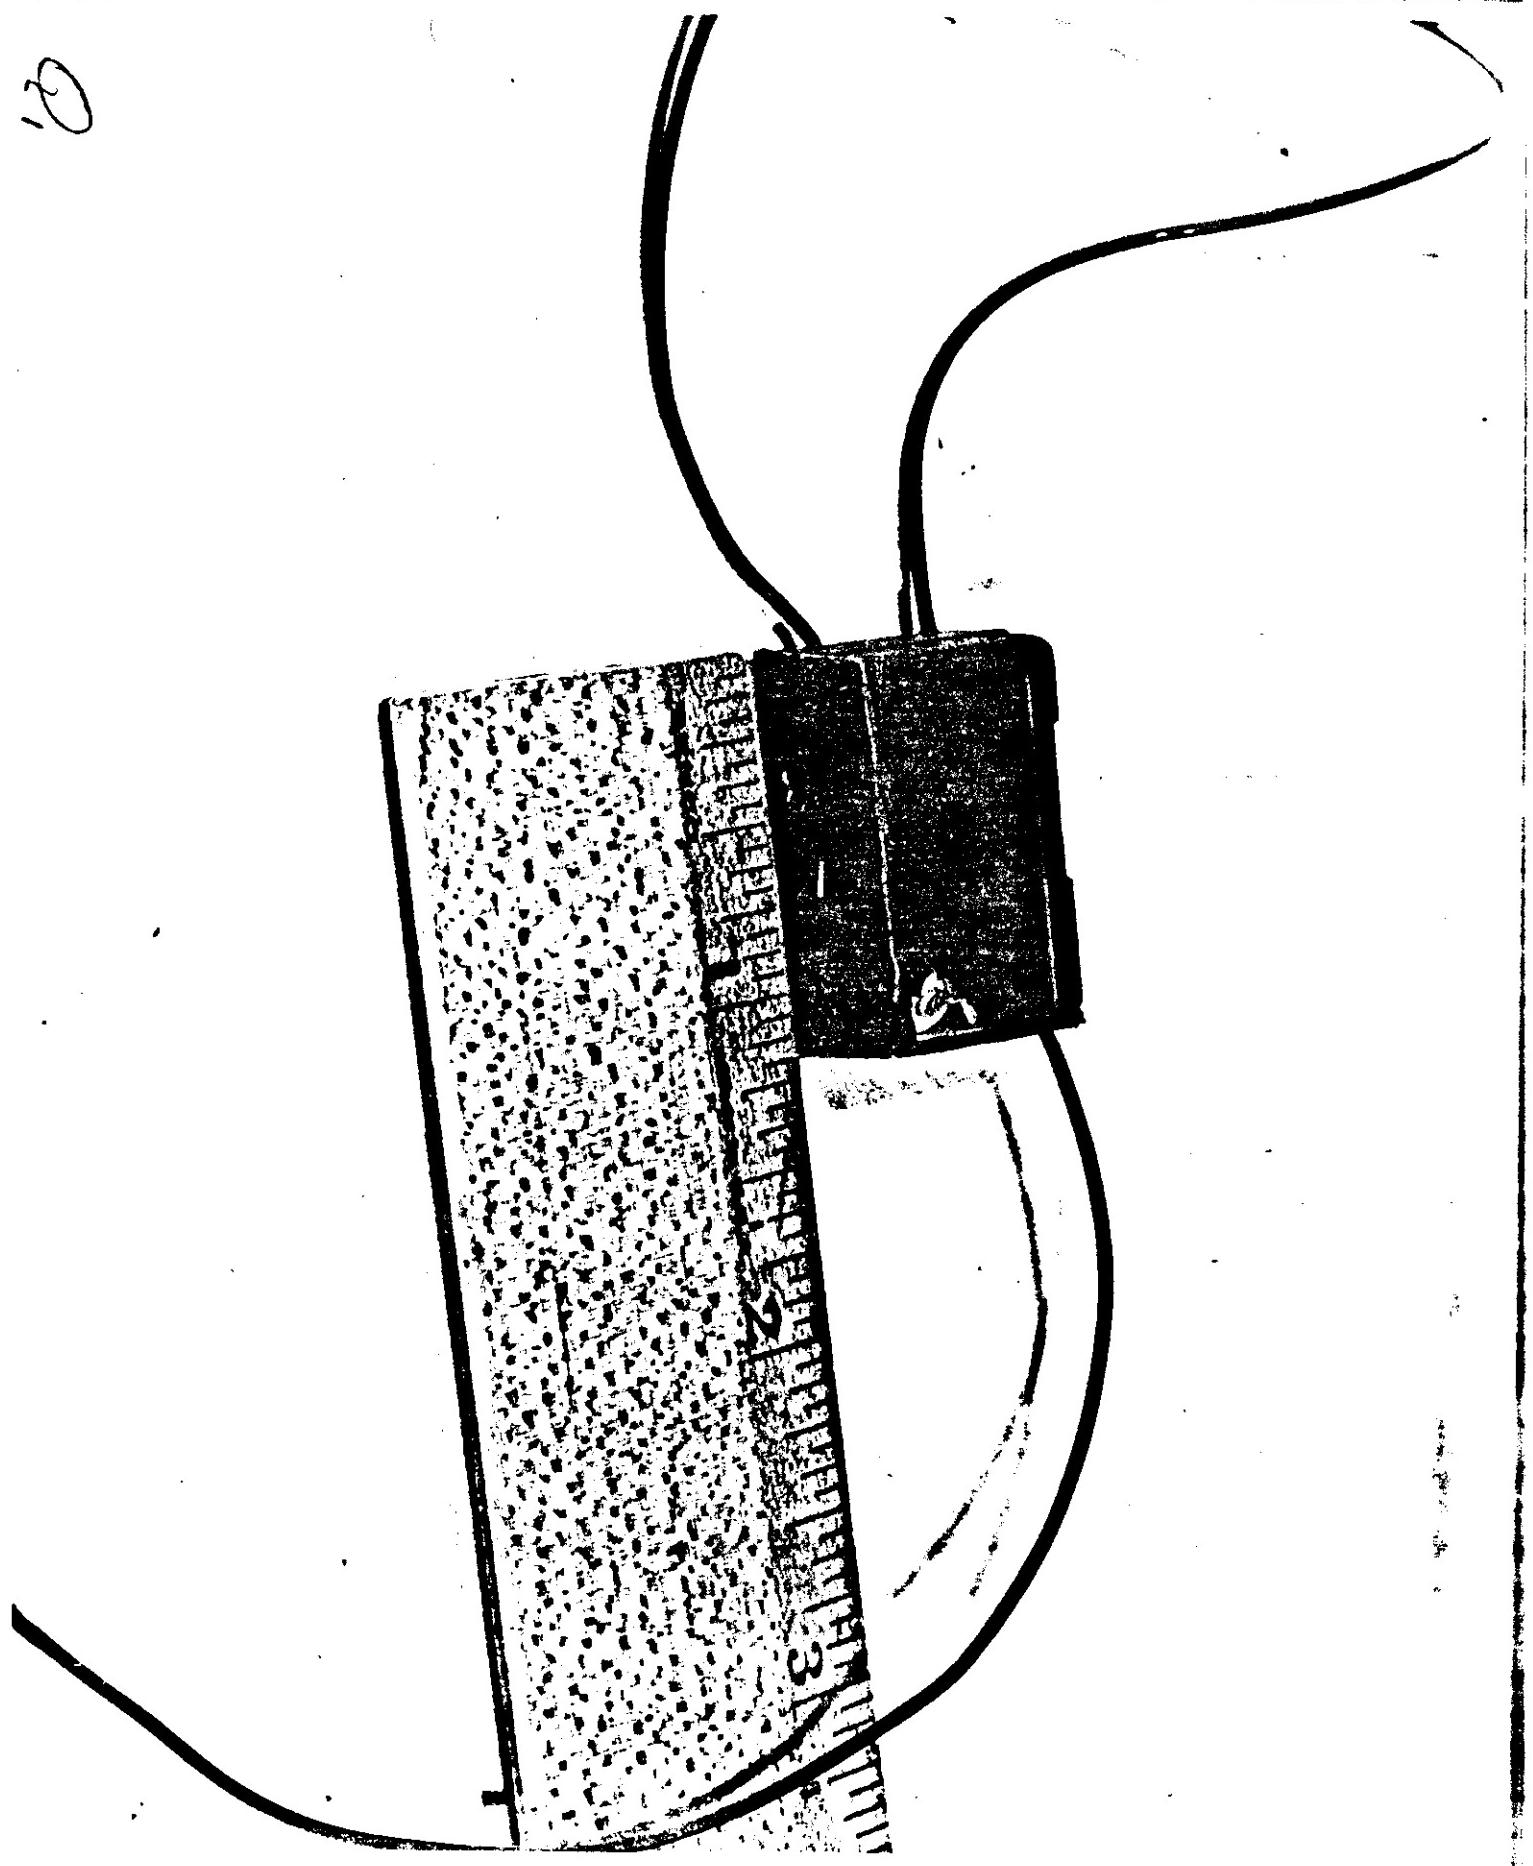

Upon receipt of the Lab's comments and suggestions regarding possible examinations of the both external and internal characteristics of the devices, WFO will discuss completion of such examination with AUSA EARL J. SILBERT, Washington, D.C., to determine which examination, if any, he desires to be completed.

Remarks:

Referenced airtel requested the Laboratory to identify any other examinations which may be conducted by the Laboratory which will establish any further similarity or difference between any of the recovered devices.

Laboratory could run an elemental analysis on the antenna wire used in Q1 and Q8 to determine whether of similar composition. If found to be similar, this would not ordinarily be conclusive evidence that both came from the same source but would merely indicate that both could have come from the same source. This type of test, if desired to be conducted, will require removal and destruction of approximately 1 1/2 inches of the antenna wire from each of Q1 and Q8.

NOV 17 1972 Similarly, Laboratory could conduct an elemental analysis on solder which is present on the specimens, to determine whether the solder may be similar in composition. Here again, a finding of similar composition would not be conclusive evidence of a common origin, but would merely indicate that the solder could have come from the same source. Such an examination would require removal and destruction of the solder from selected points on the devices.

A small amount of potting compound can be removed from Q3, Q4 and Q5 and analyzed to determine if the potting compound can be stripped from the specimen to expose components without destroying the circuit. A small amount of potting compound can be removed for the above analysis without damage to the electronic circuitry. If feasible, such removal would possibly destroy the potting compound but would permit visual examination of the presently concealed components as to possible similarities or differences.

Results of Examination:

Transmitters designated Q3, Q4, Q5 and Q8 in the Laboratory Report regarding "James Walter McCord, Jr., Et Al Burglary, Democratic National Committee Headquarters, Washington, D. C., June 17, 1972" dated June 26, 1972, which were returned to the Laboratory on October 1, 1972, were compared with Q1 in the Laboratory Report regarding "Unsub(s) Democratic National Committee Headquarters, Washington, D. C. September 13, 1972, IOC" dated September 26, 1972.

In addition to the information contained in the above mentioned Laboratory Reports the following observations were made concerning Q1, Q3, Q4, Q5 and Q8:

Q1 is obviously different in design and construction from Q3, Q4, Q5 and Q8 with respect to most observable features. While Q1, Q3, Q4 and Q5 all have alligator clips with No. 30 stamped on them, the stamp on Q3, Q4 and Q5 is one size and the stamp on Q1 is a different size. See attached photograph which shows the difference in the stamp size. Q8 has no such clip. The alligator clips on Q1 and Q3 both have black vinyl slip-on insulators with "Mueller USA" "No. 30" on them and are of the same size and type. The clips of Q4 and Q5 do not have insulators on them. In this regard Mueller alligator clips and slip-on insulators are very common and widely available.

The antenna wire used in Q1 is dissimilar to the antenna wire used for specimens Q3, Q4 and Q5; while the antenna wire used in Q1 is similar in appearance to the antenna wire used on Q9, this type wire is widely available.

The type of construction used in Q1 is different from that used in Q8 in that several of the components of Q8 are mounted in the circuit board and on both sides of the circuit board whereas in Q1 all components are soldered to the top of a circuit board. Moreover the circuit board used in Q1 is different in appearance from that used in Q8. It appears from X-rays of Q8 that the components of Q8 are mounted through and on both sides of the circuit board in a manner similar to that used in Q8. No X-rays were made of Q3 and Q4 because of the similarity of Q3, Q4 and Q5 and the possibility of circuit damage resulting from X-rays.

The basic electronic circuit of Q1 is different from that of Q3, Q4, Q5 and Q8 in that Q3, Q4, Q5 and Q8 all have two tunable coils whereas Q1 has no tunable coil, uses only one coil, and has a tunable capacitor which is not present in the other parts.

Other obvious differences in construction and size are apparent from the attached photographs.

The microphone associated with Q8 is similar in appearance to a Knowles Electronics 1390 DW082 microphone. It is noted that part of the container used in fabricating Q1 was fashioned from a Knowles Electronics plastic box. However, Knowles microphones are widely available and there is no way by which the Laboratory can determine whether the plastic box of Q1 was ever associated with the microphone of Q8.

The evidence submitted has been returned to Washington Field Office.

On 10/23/72, Mr. James Flug, Chief Counsel for Senator Edward M. Kennedy's (D-Mass) Subcommittee on Administrative Practice and Procedure, demanded that the FBI initiate an immediate investigation to locate Donald H. Segretti so that he could be called before the Subcommittee to testify. Mr. Flug was advised that this request should be submitted in writing over the signature of Senator Kennedy.

At 7:30 p.m., on 10/24/72, Mr. Flug delivered a letter addressed to the Acting Director signed by Senator Kennedy requesting the FBI's assistance in locating Segretti.

The foregoing request for assistance in locating Segretti was discussed by Mr. Felt with Attorney General Kleindienst on 10/24/72. Mr. Kleindienst instructed that the FBI should take the position that it cannot accept such a request for investigation and that such a request must be submitted by a Chairman of a full Committee to the Attorney General.

REC-107. 139-4899-1696X
The Office of Legal Counsel has advised there is authority for the position that the FBI cannot act on a request for investigation except under conditions established by the Attorney General. This is based on the constitutional separation of powers under which the Congress lacks the authority to require the Executive Branch or an agency in the Executive Branch to conduct investigation upon request. Further, the FBI is in the Department of Justice (Title 28 USC 531) which is under the control of the Attorney General. By Title 28 USC 533 the Attorney General is authorized to appoint officials to conduct such investigation regarding official matters under the control of the Department of Justice and Department of State as may be directed by the Attorney General. discretion as to what investigations should be conducted and under what conditions they will be conducted resides in the Attorney General. 4

In addition, the Department has, from time to time, issued orders that congressional request for testimony must be channeled through the Office of the Deputy Attorney General. Examples of these are memoranda to heads of divisions, bureaus and officials captioned "Testimony Before Committees of Congress," prepared by the Deputy Attorney General 3/26/69, and 3/18/68. These are contained in Bureau files 66-3288-270 and 66-3288-252, respectively. Therefore, we conclude that instructions received from the Attorney General are binding on the FBI and are fully supported in the law. 4

RECOMMENDATIONS:

(1) That the attached letter be sent to the Attorney General enclosing a copy of our proposed reply to Senator Kennedy's letter which reply is in accordance with Mr. Felt's discussion of the matter with the Attorney General. 4

CAREER BRIEF
of
LT COLONEL JAMES W. McCORD JR.
453-22-4741

1. Lt Colonel James McCord was born on 26 January 1924 at Waurika, Oklahoma. He was graduated from the University of Texas with a Bachelor's Degree in Business Administration in 1949, and in 1951 had 15 semester hours at Lincoln Law School, Oakland, California.

2. He was enlisted in the Air Force from 23 November 1943 to 24 July 1945 at which time he was discharged to accept a commission as a 2d Lt with a bombardier rating, and was on extended active duty until 14 November 1945. From 15 November 1945 to 30 June 1963 he was on reserve status as an intelligence officer and had 139 days active duty. He was inactive from 1 July 1963 to 30 June 1964. He was then assigned to duty as an intelligence officer with AFESS-FE at Headquarters USAF. During this period, the servicing CBPO was located at Bolling AFB. On 15 June 1970 he was reassigned to duty as Commander, Detachment 23, 1st Censorship Squadron, Arlington, Virginia. This Detachment was under command control of the 1st Censorship Squadron, Ft Totten, New York. The CBPO for the Detachment was at AFPC until 1 May 1972 at which time the responsibility was transferred to the 459th Military Airlift Wing, Andrews AFB.

3. Colonel McCord has 17 years, 8 months, and 8 days good reserve time toward retirement. We do not yet have the AF Form 190 for the period from 1 July 1971 to 30 June 1972. There is a report of active duty for training from 17 July 1971 through 31 July 1971.

4. His record shows evidence of a background investigation completed in November 1951 and filed at Hqs OSI (IG), Washington, D. C. The current Ready Reserve Agreement (DD Form 1644) obligates him to reserve service until 18 September 1972.

5. The officer effectiveness reports and the training reports since 18 February 1967 have been quite complimentary. Many of them are based on intelligence schools including the Defense Intelligence School, U. S. Naval Station, Anacostia, Washington, D. C., and the John F. Kennedy Center for Special Warfare at Ft Bragg, N. C.

GENERAL INVESTIGATIVE DIVISION

Attached advises that Robert Thurston Davis, who is presently in New York City in protective custody of the U. S. Marshal's service in connection with testimony by Davis in an Interstate Transportation of Stolen Property (ITSP) matter, on 11/21/72, advised he has information concerning the Watergate case. Davis, who has widespread criminal contacts [REDACTED]

[REDACTED] said that in the Spring of 1972 while he was in Tennessee, [REDACTED] protective custody, he met and worked with a Secret Service Agent named Tom Scott. Later Davis came to Fort Belvoir, Virginia, and again met Scott who introduced Davis to Bernard L. Barker and James McCord. u

b7D
b7C

Davis claims that he worked with Scott, Barker and McCord in the Washington, D. C., area and that he and Scott entered the Democratic Party Headquarters at the Watergate on several occasions to check out electronic transmitting devices that had been planted at various locations. Davis claims he was not involved in the 6/17/72, burglary. u

Davis further claims that sometime in the Spring of 1972 he flew Barker, McCord and another individual of Cuban descent from Woodbridge, Virginia, to Del Rio, Texas. There Barker, McCord and the other individual met with a man in an automobile, whom Davis claims to be former Secretary of the Treasury John Connally. Davis said he took photographs of this meeting with a hidden camera and he claims to have negatives of photographs of this meeting. u

Efforts are being made by Assistant U. S. Attorney Silbert to have Davis brought to Washington, D. C. for an in depth interview by Special Agent Angelo J. Lano, the case Agent. Failing this, Special Agent Lano will be instructed to immediately proceed to New York City to interview Davis. Leads regarding attached interview with Davis are being held in abeyance pending Special Agent Lano's interview. u

GENERAL INVESTIGATIVE DIVISION

Attached advises that Robert Thurston Davis, the individual who claims that in the Spring of 1972 he and an alleged Secret Service Agent named Tom Scott entered Democratic Headquarters at the Watergate on several occasions to check out electronic transmitting devices that had been planted there, has been brought from New York to Washington, D. C., for a detailed interview by Special Agent Angelo Lano, the Watergate case agent. Davis also claims that during the Spring of 1972 he flew with Barker, McCord and another individual to Del Rio, Texas, where Davis, with a hidden camera, took photographs of a meeting between former Secretary of the Treasury John Connally and Barker, McCord and the unidentified individual. 4

In preliminary interview during late evening of 11/22/72, Davis was unable to identify the Watergate office building and could not describe the bugging device involved nor give a physical description of various places in the area of the Watergate. 4

Washington Field Office is making arrangements to secure the photographs Davis claims to have made and the log of the flight which he claimed was made to Del Rio, Texas. Detailed interview of Davis is also being pursued. 4

On December 5, 1972, you raised with Mr. Kinley the question whether, in light of Judge Sirica's liberal attitude towards the scope of admissible evidence in the Watergate trial as reported in the newspapers, the FBI has met whatever responsibility it has to investigate charges of political sabotage which have been widely discussed in conjunction with the Watergate case. u

The proposed memorandum from you to Mr. Petersen submitted herewith for your consideration is an outgrowth of meetings Miss Herwig and I had first with Mr. Kinley and then with Messrs. Gebhardt, Gallagher, Bolz and Nuzum. u

In connection with this proposed memorandum, the group considered whether to attach to it certain news articles, notably those from the Washington Post, which have discussed these alleged acts of political sabotage. It was decided that if we did this, we would run the risk of failing to forward to the Department some article containing some allegation which someone later will say should have been included in our presentation to the Department. We recognize, however, that Mr. Petersen may come back and ask us to specify the news articles to which we are referring, and, if this occurs, we will then make available to him those articles which in our judgment contain all of the allegations of sabotage that have been made. u

Although Mr. Dalbey has cited certain Federal statutes which may have been violated by the reported acts of sabotage, a decision was made not to specify any particular statutes but instead to leave a consideration of various statutes entirely to the judgment of the Department. u

The decision was also made that it would be preferable for the request to be made from FBI Headquarters to the Department instead of from WFO to the United States Attorney for the District of Columbia. Although the immediate forum for the introduction of evidence of alleged sabotage is the Watergate trial, the alleged acts are nationwide in scope and not within the sole jurisdiction of any particular United States Attorney's Office. 4

You were contacted on October 17, 1972, by Section Chief Charles Bolz, Accounting and Fraud Section, relative to the activities of Donald Henry Segretti as related by Mr. Segretti to the FBI, and his alleged activities as set forth in recent issues of the "Washington Post." 4

You advised Mr. Bolz then that you did not believe Mr. Segretti's activities were in violation of any Federal statutes and, accordingly, could see no basis for requesting any additional investigation of Mr. Segretti by the FBI at that time. 4

It is noted that on December 4, 1972, Chief Judge John J. Sirica, United States District Court, Washington, D. C., in connection with a pretrial conference concerning the forthcoming trial of the defendants in this matter, indicated that the trial should cover a broader area than that covered in the indictment of the defendants.

REC-13 139-4089-1732

JAN 3 1973

In light of this, the FBI would appreciate advice from the Department whether the alleged acts of political sabotage by Donald Henry Segretti and others, reported in numerous news articles in recent months, warrant further investigation as a possible violation of any Federal statute within FBI jurisdiction. In considering this matter, your attention is further directed to the FBI's interview of Mr. Segretti, as set forth beginning on page 11 of the report of Special Agent John M. O'Neill, Jr., dated June 28, 1972, at Los Angeles, California, and to the interview of Mr. Dwight Chapin, as set forth beginning on page 20 of report of Special Agent Angelo J. Lano dated September 21, 1972, at Washington, D. C. Copies of the foregoing reports were previously furnished to your office. 4

Judge Asks Broader 'Bug' Trial

By Lawrence Meyer
Washington Post Staff Writer

The judge who will preside at the trial of seven men charged in connection with the break-in and alleged bugging of Democratic headquarters at the Watergate said yesterday that the trial should cover a broader area than the narrow limits the prosecution has indicated it will cover.

"This jury is going to want to know what did these men go into that headquarters for? Chief U.S. District Court Judge John J. Sirica said. "Was their sole purpose political espionage? Were they paid? Was there financial gain? Who hired them? Who funded it?"

The comments by Sirica during a four-hour pretrial conference were the first indication that the trial may explore whether the seven men charged were operating on orders from higher authorities when they allegedly conspired to break in and bug the Democratic National Committee's Watergate headquarters June 17.

In the course of the wide-ranging conference, lawyers also argued that:

- Sirica exercise some control over the press in order to prevent prejudicing the jury. William O. Billman, lawyer for former White House aide E. Howard Hunt Jr., told Sirica that the press "has had a field day writing prejudicial

articles. I think it should come to a halt and your Honor has a right to stop it." Sirica indicated, over defense objections, that he would deal with the problem of trial publicity by sequestering the jury.

The Los Angeles Times should be compelled, under the threat of contempt of court proceedings, to produce tapes and notes of an interview with Alfred C. Baldwin III, described by the defense as the government's key witness. Sirica, who made no ruling, indicated that a contempt citation was possible if the paper or its employees refused a court order to produce the materials.

According to federal investigators, the June 17 break-in was one incident in a year-long campaign to spy on and disrupt Democratic presidential campaigns on behalf of President Nixon's re-election. Besides Hunt, one other former White House aide, G. Gordon Liddy, is charged in connection with the alleged Watergate bugging. Liddy was counsel for the Finance Committee to Re-elect the President until he was fired after refusing to answer the questions of FBI agents investigating the incident. James W. McCord Jr., security director of the President's re-election committee at the time of the alleged incident, also has been charged in the indictment with Hunt and Liddy and four others.

During the hearing yesterday, Sirica asked Earl J. Sherr, principal assistant U.S.

attorney if the government will present testimony concerning a \$25,000 check and another \$89,000 that turned up in the bank account of Bernard L. Barker, one of the seven defendants.

Silbert said the government will offer evidence on the \$25,000 check and will also trace the \$89,000, "not necessarily from its source, but part of its way."

To trace the \$89,000 fully, Silbert said, would require calling an alien to testify. The \$89,000, according to federal investigators, originated in the bank account of a Texas corporation, went to Mexico and wound up in the form of four cashier's checks in Barker's Florida bank account.

The \$25,000 check that Silbert referred to is believed to represent a \$25,000 cash contribution made by Dwayne Andrews, a Minnesota investor, who gave the money last April to Kenneth Dahlberg, Midwest Republican finance chief. Dahlberg subsequently converted the money to a cashier's check and gave it to Maurice Stanga, chief national fund raiser for the President. The check later also turned up in Barker's Florida bank account.

Silbert said there will be no evidence concerning those funds. Sirica asked if Silbert would show the motive and intent of the evidence. Silbert said he will present testimony "from which the jury may draw a variety of motives." Silbert said that circumstantial evidence will show a "prior association" by the defendants.

Although Bittman objected that testimony about the money should not be permitted since the indictment makes no mention of it, Sirica said that "on the question of motive and intent, the government should be allowed considerable latitude."

Later in the hearing, Bittman and other defense lawyers asked Sirica to reconsider his earlier announced decision to sequester the jury. Lawyers for both sides offered estimates that the trial could take from six weeks to three months. Defense lawyers argued that the defendants would be plagued by the jury or sequestration.

Bittman argued that there is "no other reason" for sequestering the jury if the press will exercise some restraint in this case.

Silbert responded that under "the First Amendment and the right of a free press there is no way that the press can be restricted." You can't ask the press not to print certain materials."

In October, Sirica issued a broad order drafted by Bittman and Silbert that severely restricted out-of-court statements by anyone associated with the trial. The order was criticized as too broad and too vague and Sirica relaxed it. Sirica yesterday said he would tell the jury that they were being sequestered on his own motion and he denied defense requests to simply instruct the jury not to read newspapers or watch television.

During a recess, Bittman told a reporter that he wanted Sirica to control the conduct of reporters in the courtroom. In addition, Bittman said, he wanted news stories about the trial limited to the evidence the jury actually hears. "Testimony out of the presence of the jury shouldn't be reported," Bittman said. With Sirica maintaining that the jury will be sequestered, however, Bittman said the whole question is "moot."

Sirica announced yesterday that he is making arrangements with U.S. Marshal Anthony Papa for accommodating the press.

Bittman also asked that Sirica immediately order The Los Angeles Times to turn over the tapes and notes of its interview with Baldwin, who has described himself as the man who monitored telephone calls coming in and going out of the Democratic headquarters. Bittman said that if the Times refused to produce the materials after the trial had started, appeals could delay the trial indefinitely.

Sirica asked both government and defense lawyers to present him briefs before he rules on a subpoena of the materials. Sirica said he was not threatening to hold anyone in contempt but he told a reporter that a contempt citation was possible if the Times resists a court order.

GENERAL INVESTIGATIVE DIVISION

The attached is a rather factual account of virtually the same information Washington Field Office received from Miss Kathleen Ann Chnow (not Chenow as shown in the paper) when she was interviewed in the presence of John Dean at the Executive Office Building on 7/3/72. She claimed that the telephone for Hunt which was installed in David Young's office in the Executive Office Building was essentially a private line for Hunt and served as an answering service for him. She advised us that she last saw Hunt in March, 1972, and last observed Liddy in February, 1972, at the Executive Office Building. She did not know what duties either Hunt or Liddy performed at the White House. *u*

Bug Case Figures Used Covert Executive Phone

By Carl Bernstein and Bob Woodward

Washington Post Staff Writers

Former White House consultant E. Howard Hunt Jr. had a special private telephone in the Executive Office Building that was used almost exclusively for conversations with Bernard L. Barker, a code-defendant in the Watergate bug-ging case, according to a former White House personal secretary.

The telephone apparently was the only one in the White House complex for which bills were sent to a private home—that of the secretary, Kathleen Chenow.

Miss Chenow told The Washington Post that by arrangement she would submit the bills to an aide in the office of John Ehrlichman for payment. Ehrlichman is Presi-

dent Nixon's principal assistant for domestic policy. Deputy presidential press secretary Gerald Warren said the White House would not comment on the matter because it might relate to the Watergate bugging investigation.

By not commenting, the White House left unanswered the questions of how Hunt's official duties could require a camouflaged telephone listing and why Ehrlichman's office would approve the arrangements for such phone service.

On June 20, it was reported that Hunt was associated with at least two of the men who were arrested in the break-in. See WATERGATE, A14, Col. 1

Covert Phone Used By 'Bug' Suspects

WATERGATE, From A1
and alleged bugging of Democratic National Committee headquarters at the Watergate three days earlier. At the time, a White House spokesman stressed that Hunt was only a part-time consultant whose work involved declassification of the Pentagon Papers and "narcotics intelligence."

In addition to being indicted in the Watergate bugging, Hunt, according to federal investigators, was an important figure in a campaign of spying and disruption against Democratic presidential candidates. Investigators have said the operation was conceived by high White House aides as basic election strategy.

Miss Chenow said the private phone, in use from August, 1971, to March, 1972, was intended only for Hunt's use. Asked why it was listed in her name at her Alexandria address, she said: "That's a good question; they apparently wanted it in my name because they didn't want any ties with the White House—for what reason I don't know."

The C&P Telephone Co. official in charge of White House service confirmed that he had been asked by administration officials to have the phone installed and said that in his 25-year career in the Executive Branch he could recall no such arrangement for anyone else.

Miss Chenow, 23, worked during 1971 and early 1972 in a basement suite in the Executive Office Building shared by Hunt and G. Gordon Liddy, another Watergate defendant, and David Young, a White House aide who, like Hunt and Liddy, were on the Ehrlichman staff.

During a 30-minute telephone interview, Miss Chenow also became the first person associated with the White House to confirm that a special team of officials there—the so-called "Plumbers"—was assigned to investigate government leaks to the news media.

Miss Chenow said that the team consisted of at least Young, Liddy, Hunt and Egil Krogh, another aide to Ehrlichman—and that they referred to themselves as "The Plumbers." She said that Young, for whom she worked as a personal secretary, made regular reports on the team's investigations to Ehrlichman. Young has declined to answer phone calls for a reporter.

Asked about the special telephone, Miss Chenow said:

"That was Mr. Hunt's phone. It was put in for me to answer and take messages for him." The phone rang "an average of once a week, sometimes two or three times a week," said Miss Chenow, and the caller usually identified himself as Bernard Barker.

"Mr. Barker always called that phone; he was about the only one who ever called," added Miss Chenow. She was among the witnesses who testified before the grand jury that indicted Barker, Hunt, Liddy and four other men on charges of conspiring to bug the Democratic headquarters at the Watergate.

Referring to outgoing calls by Hunt, Miss Chenow said, "I remember him calling Mr. Barker and his (Barker's) wife—nobody else." Hunt and Barker appeared to be good friends, she added, because they "were always chummy" on the phone, with Hunt often saying "How are you? What you been up to?"

On November 2nd, Miss Chenow, Liddy, "might have used the phone to talk to somebody." Hunt had placed a call to . . .

After the bills for the phone service were mailed to her home, Miss Chenow continued, she sent them "to John Campbell of the Domestic Council staff . . . so the White House would pay them. Apparently it had been arranged."

Asked who made the arrangements for installing the telephone and the billing procedure, she said: "Mr. Hunt, Mr. Young and Mr. Liddy. They had talked to Mr. Campbell and he would take care of it."

Campbell, 23, is a member of the Domestic Council staff headed by Ehrlichman. White House staff members say he functions as an office manager for Ehrlichman.

Jack Harrington, the C&P White House marketing representative, confirmed the existence of the telephone and said, "I can't understand why they did it . . . I've never heard of such an installation before."

According to Miss Chenow, neither she nor Young—who is a member of Dr. Henry Kissinger's National Security Council staff—had any idea that Hunt or Liddy might have been involved in undercover political operations, but after the Watergate bugging Young put two and two together, she said.

During the period that she worked with Hunt and Liddy, Miss Chenow said, there were occasional visits and calls on standard White House telephones to either or both of the men from other Nixon administration officials.

Among them, she said, were Robert C. Mardian, then assistant attorney general in charge of internal security

⑥ Did she testify b4 GJ as per her interview with us? Can we find out?

and later political coordinator of the Nixon campaign. Magruder reportedly directed the destruction of important records and documents after the Watergate break-in; Jeb Stuart Magruder, at the time acting manager of the President's re-election campaign and one of several persons who withdrew large sums of campaign money from a fund allegedly used to finance political spying and disruptions.

Also: Robert C. Odle, a former White House aide and Magruder's assistant at the Committee for the Re-election of the President (Odle allegedly participated in the destruction of records); and Charles W. Colson, special counsel to President Nixon and the man on whose recommendation Hunt was hired by the White House.

In addition, former Attorney General John N. Mitchell talked by phone with Young, said Miss Chenow, adding: "I don't know what about; I didn't know how often."

Miss Chenow said she had no idea of the purpose of the visits and calls by those persons and that at no time was there any suggestion that they involved anything sinister.

The former White House secretary, who now lives in Milwaukee, said that:

Many of the telephone conversations between Hunt, a former CIA operative, and Barker, a Cuban refugee with extensive CIA contacts, were conducted in Spanish—which Miss Chenow does not understand.

Colson's secretary often typed for Hunt and on one occasion Miss Chenow typed a memo from Hunt to Colson—the contents of which she cannot remember. ("I couldn't be sure if he worked with Colson but I knew they were good friends," Miss Chenow said.)

Mr. [unclear] said his family was going to the Colsons for dinner (and) he would say, "I have a meeting with Mr. Colson at such-and-such a time."

On at least two occasions, Nardian—who has denied association with the operation known as "The Plumbers"—visited Hunt, Liddy and Young in their basement office in the Executive Office Building. Nardian also attended a meeting with Hunt, Young and several others in Krogh's office during the period when government leaks to the news media were being investigated, Miss Chenow said.

She was tracked down in England shortly after the Watergate bugging by a member of the staff of presidential counsel John Dean and asked to accompany him back to Washington to be interviewed by Dean and the FBI.

Dean, who the White House has said conducted an investigation of the Watergate case for President Nixon, never questioned her. Instead, he listened without taking notes while two FBI agents interviewed her in the presence of Young and another White House aide.

The day before she appeared before the grand jury, Assistant U.S. Attorney Earl J. Silbert questioned her extensively about Colson and asked her at one point "if I thought Colson was involved" in the bugging and how closely Mr. Hunt worked with Mr. Colson—if he did. She said she knew nothing about the bugging, in which Colson has denied involvement or knowledge.

Liddy, following his departure from the White House in December, 1971, to become counsel to the Nixon re-election committee, would return to the White House about once a week "to visit."

Concerning the team of "Plumbers" assigned to investigate news media leaks, Miss Chenow said: "For a while they were studying State Department leaks. They checked embassy cables and tried to put two and two together about whose desks the cables went across."

The original project dealing with the Pentagon Papers—called determining if accounts of their contents, as written by the New York Times, were consistent with what the actual documents stated, Miss Chenow said. Soon, however, they were looking for leaks to determine how the Pentagon Papers got out.

In addition to looking for leaks on the Pentagon Papers, she said, "The Plumbers" also attempted to determine how syndicated columnist Jack Anderson had obtained confidential White House memos on administration policy related to the Indo-Pakistani war.

Miss Chenow, who left the White House in March to travel extensively in Europe, described the origin of the term "Plumbers" this way:

"David Young's mother-in-law or grandmother or somebody saw in the New York Times that Krogh and Young were working on leaks. She called it to his attention, saying, 'Your grandfather would be proud of you, working on leaks at the White House. He was a plumber.' So David put up a sign on the door that said, 'Plumber. Mr. Young.'

Report

December 1 1972
GENERAL INVESTIGATIVE DIVISION

This concerns burglary of Democratic National Committee Headquarters, Washington, D. C., 6/17/72. u

On 12/8/72, Dorothy Hunt, wife of E. Howard Hunt, Jr., (subject who was arrested in captioned matter) was victim in crash of United Flight 553 in Chicago, Illinois, 12/8/72, in which it was discovered she was carrying \$10,000 in \$100 Federal Reserve notes plus \$585 in miscellaneous bills. u

At request of Assistant U. S. Attorney Silbert, our Chicago Office contacted Chicago Police Department (CPD) for identifying data on these notes. They were determined to be old bills having no particular significance. u

CPD official advised that E. Howard Hunt, Harold Carlstead, (a cousin of Mrs. Hunt by marriage) and attorney George Dennis Gilley appeared at Chicago morgue and made general inquiry whether large sum of money carried by Mrs. Hunt had been recovered. Hunt did not appear overly concerned about money.

Gilley has office in Harvey, Illinois, and Chicago Indices contain nothing derogatory concerning him. u

The Acting Director raised a number of questions regarding the 12/8/72 article in "The Washington Post" (attached). Following is a reply to these questions, each of which is numbered to correspond with numbers placed alongside the Acting Director's notations.

(1) Attached is a copy of the FD-302 setting forth the interview on 7/3/72, conducted of Miss Kathleen Ann Chnow. Also attached is a copy of Washington Field Office teletype dated 7/7/72, containing information as to Miss Chnow's testimony before Federal grand jury. (Note-True name is Chnow not Chenow). *DC*

(2) During interview, Miss Chnow advised as noted in the attached FD-302, she was requested by David R. Young to install a private telephone in a suite at the Executive Office Building and to arrange to have the billing for this phone sent to her home address. According to Young, who was interviewed on 7/3/72 *B*, Hunt, while working with Young on the Pentagon Papers, asked to have a telephone installed in the office which would not go through or be billed to the White House switchboard. Hunt told Young he needed a private line for "operatives and CIA contacts" to reach him directly without them knowing this phone was in the White House. In addition, Hunt needed a phone where messages could be received by a secretary. It was important for someone to take messages because Hunt was in the office so seldom. Young told Miss Chnow to set up such a telephone which she did. Chnow received the bills for this phone at her home address, which bills she forwarded to John Campbell of the White House staff for payment. Investigation disclosed Hunt received and made numerous long-distance calls over this telephone, generally to Bernard L. Barker in Miami, who was arrested at the time of the Watergate burglary.

REC-21 139-4089-1745

(3) "The Washington Post" article reports that Hunt was an important figure in a campaign of spying and disruption against Democratic presidential candidates. Our investigation

RE: JAMES WALTER MC CORD, JR.

developed no information to support this allegation other than that which is shown from review of Hunt's toll call records that he was in frequent contact with Donald Henry Segretti, who was hired by Dwight Chapin of the White House staff to engage in acts of political harassment against Democratic candidates.

(4) The article states that investigators have said the campaign of spying and disruption against Democratic candidates was conceived by high White House aides. During our investigation of this matter, Dwight Chapin of the White House staff admitted on 8/28/72, that he hired Donald H. Segretti for the purpose of harassing Democratic candidates. Chapin further admitted that he authorized attorney Herbert Kalmbach of the West Coast Committee to Reelect the President to pay Segretti for his services in this regard.

(5) With regard to the newspaper's statement that according to Miss Chnow there was a special team of so-called "plumbers" assigned to investigate Government leaks to the news media, Miss Chnow did not furnish us any such information during her interview on 7/3/72. Young advised us on 7/3/72, that he was assigned to find "leaks" and Liddy and Hunt worked for Young. In our interview of Miss Chnow, she said she did not know what duties Hunt and Liddy performed.

(6) With regard to Miss Chnow's testimony before the Federal grand jury, the Washington Field Office teletype dated 7/7/72 (attached), states that in her appearance before the grand jury,

b3 [REDACTED] Our investigation of long-distance telephone calls made from telephone #202-347-0355 which was the telephone installed in Miss Chnow's name at the Executive Office Building.

C. Bolz to Mr. Bates
RE: JAMES WALTER MC CORD, JR.

(7) With regard to the newspaper's account that Miss Chnow said that neither she nor David Young had any idea that Hunt or Liddy might have been involved in undercover political operations, this is virtually the same information she told our Agents. The newspaper quotes Miss Chnow as having stated that after the Watergate bugging, Young "put two and two together;" however, in their interviews, neither Miss Chnow nor Young told us any such thing.

(8) According to the article, Miss Chnow stated that various individuals from the Committee to Reelect the President called either Hunt or Liddy using regular White House telephones. She said she had no idea of the purpose of these calls and at no time was there any suggestion that they involved anything sinister. This is in agreement with her interview by our Agents as she told them she had no idea as to Hunt or Liddy's duties.

(9) The article states that Miss Chnow was tracked down in England shortly after the Watergate burglary by a member of John Dean's staff, that she was asked to accompany him to Washington to be interviewed and that subsequently, she was questioned by two FBI Agents in the presence of Dean, Young and another White House aide. We have no knowledge as to any contacts by a member of the White House staff with Miss Chnow in England; nor do we know in what manner she returned to the United States. She was questioned by two FBI Agents in the presence of Dean, and Fred Fielding, Dean's assistant (see attached FD-302).

(10) The newspaper reports that the day before Miss Chnow appeared before the grand jury, Assistant U. S. Attorney (AUSA) Earl Silbert questioned her extensively and asked if she thought that Charles Colson was involved in the bugging. She is quoted as saying that she knew nothing about the bugging. AUSA Silbert advised Washington Field that during Miss Chnow's grand jury testimony,

Miss KATHLEEN ANN CHNOW, was interviewed at room 107 of the Executive Office Building, 17th and Pennsylvania Avenue, N.W., Washington, D.C. (WDC), in the presence of Mr. JOHN DEAN, Legal Counsel to RICHARD M. NIXON, President of the United States and Mr. FRED FIELDING, Mr. DEAN's chief assistant. At that time Miss CHNOW furnished the following information:

She had been employed in a secretarial capacity to Mr. DAVID YOUNG of room 16, the Executive Office Building, WDC from June 1971 until sometime in March, 1972. During her employment in this capacity in October, 1971, Mr. YOUNG requested of her to have a private telephone line installed in a suite of offices located at room 16 so that Mr. E. HOWARD HUNT will be in a position to receive calls on that phone line. This phone was to be billed to Miss CHNOW at her home address, 501 Slaters Lane, Alexandria, Virginia. Miss CHNOW agreed that this phone was installed per the directions of Mr. YOUNG and that Miss CHNOW brought the bills, approximately two, into the office and forwarded those bills to Mr. JOHN CAMPBELL, staff secretary to RICHARD M. NIXON, President of the United States.

Miss CHNOW advised that this phone remained in the office of room 16 for approximately five months, and to the best of her recollection the phone was taken out in the middle of March, 1972. Miss CHNOW advised that Mr. YOUNG's office consisted of four rooms; Mr. YOUNG's office, center office, conference room and a small reception area. The phone which he had installed and billed to her residence was an actual extension on two phones setting on actual desks in the center office and possibly a third extension went into the conference room. Miss CHNOW stated that Mr. HUNT visited YOUNG's office on an average of approximately two times a week and that he did not maintain office space in room 16, but had an office on the third floor of the Executive Office

Miss CHNOW advised that she last saw Mr. HUNT in March, 1972, in the EOB. Miss CHNOW believed that Mr. HUNT was assisting Mr. YOUNG in the aftermath of the "Pentagon Papers." Miss CHNOW stated that she was also acquainted with Mr. G. GORDON LIDDY, in that he was the third party that assisted Mr. YOUNG and that he occupied an office in the same general location of YOUNG. The last time Miss CHNOW observed LIDDY was in February, 1972, when he appeared at Mr. YOUNG's office in order to pick up mail addressed to him. Miss CHNOW stated LIDDY left the employ of the White House in December, 1971, for employment with the Committee to Re-elect the President. Miss CHNOW advised that she did not know what duties either Mr. HUNT or Mr. LIDDY performed for the White House but that they had occupied staff positions. She advised that the phone installed for Mr. HUNT in room 16 was essentially a private line for Mr. HUNT and it acted as an answering service.

Miss CHNOW stated that at the present time she is not an employee of the U.S. Government and that in fact was on an extended visit of Europe, and returned to the United States per the request of Mr. DEAN.

The following description of Miss CHNOW was obtained through observation and interview:

On 6/12/72, \$10,000 cash deposit made; bank employee receiving this deposit could not identify McCord. Serial numbers of money not recorded.

(3) Kathleen Chenow, former secretary to David Young, appeared before Federal Grand Jury, 7/7/72. Her statement was same as given to Bureau Agents; however,

He said he only had one conversation with Odle around this date wherein Odle inquired for recommendation to replace McCord. Santarelli denied knowing anything about case other than what he had read in the newspapers. B3

(5) Secretary to Maurice Stans advised Stans departed Washington, D.C. LAWRENCE MILLER, Assistant to Commissioner, Department of Relocation and Management Services, New York City Housing and Development Administration, 100 Gold Street, New York, New York, was interviewed and he furnished the following information:

He advised that his department supervised the relocation of tenants from the Hamilton Hotel, 141-143 West 73rd Street, New York, New York, which was closed down on January 9, 1971, pursuant to an order to vacate, dated December 29, 1970, issued by the New York City Department of Health. He advised that as a result of this vacate order, all of the tenants at the Hamilton Hotel had been forced out of their apartments and had to locate new residences. The last tenant of the Hamilton Hotel left on January 9, 1971, and, thus, the order to vacate was fully complied on January 9, 1971.

MILLER furnished a copy of the order to vacate as well as a document known as the "Building Face Sheet - Residential Tenants", which set forth the identities of the tenants occupying apartments at the Hamilton Hotel as of December 29, 1970. No true name or alias of any of the individuals regarded as suspects or subjects in the burglary of the Democratic Party Headquarters, Washington, D.C., on June 17, 1972, was included on this list of tenants.

MILLER advised that a subpoena duces tecum for the production of the original "Building Face Sheet - Residential Tenants" (tenant list as of December 29, 1970) should be directed to Mr. JUAN VILLANUEVA, Commissioner, New York City Housing and Development Administration, 100 Gold Street, New York, New York.

MILLER advised that his department did not prepare a document or memorandum confirming that the order to vacate was fully complied with on January 9, 1971, inasmuch as the other New York City agencies, which had an interest in the compliance of the vacate order, had their representatives at the Hamilton Hotel on January 9, 1971. Thus, there was no need for written verification and dissemination of a document to the effect that the Hamilton Hotel was completely emptied on January 9, 1971.

**IV. ALLEGATIONS AND ADMISSIONS OF ROBERT
THURSTON DAVIS**

FEDERAL BUREAU OF INVESTIGATION

Date of transcription.

11/21/72

ROBERT THOMAS DAVIS was interviewed in Room 237, Skyline Motor Inn, Tenth Avenue and 50th Street, where he was residing while in protective custody of the United States Marshal's Service. DAVIS voluntarily furnished the following information to the interviewing Agents. Assistant United States Attorney (AUSA) JAMES W. RAYHILL, Southern District of New York (SDNY), New York, New York, was present at the interview at the specific request of AUSA EARL SILBERT of Washington D.C.

In the Spring of 1972, while working in Memphis, Tennessee, in protective custody for the United States Secret Service, the Alcohol, Tobacco and Firearms Division of the United States Treasury Department, and the Office of the Tennessee State Attorney General, DAVIS met and worked with a United States Secret Service (USSS) Agent named TOM SCOTT on an investigating assignment for approximately three weeks ^{Tenn}. DAVIS worked in the Memphis area for approximately six weeks and then came to Fort Belvoir, Virginia, where he remained in the protective custody of the United States Marshal's Service under the assumed name of Major ROBERT HARESTON.

While at Fort Belvoir, DAVIS began frequenting a bar in Washington D.C. named the "Black Greco", where again he met up with TOM SCOTT. DAVIS and SCOTT renewed their acquaintance on a social basis and after a short time, SCOTT introduced DAVIS to BERNARD BARKER and JAMES MC CORD as individuals who worked for the United States Government. MC CORD was dating a girl named LINDA who worked at the "Black Greco".

Shortly after becoming associated with BARKER, MC CORD and SCOTT, DAVIS was asked by SCOTT to perform an errand which involved picking up a box from SCOTT and delivering it to BARKER. DAVIS agreed and was given a box by SCOTT at the "This Is It" bar, Washington D.C. which he delivered to BARKER at a drive-in theater in Oxon Hill, Maryland. DAVIS could not recall the exact name of the theater but believed it had some type of Indian name. The box was in an open condition and DAVIS observed that it contained eight electronic "transmitters".

After making the delivery to BARKER, DAVIS recontacted SCOTT and asked him for an explanation concerning these electronic transmitters. SCOTT indicated that this equipment was going to be used in bugging the Democratic Party National Headquarters Washington D.C., because it had been learned that people working for United States Senator GEORGE MC GOVERN were in contact with the Cuban Government. Therefore the Democratic Party National Headquarters was being bugged in the interest of national security.

Thereafter, DAVIS was asked by BARKER and SCOTT if he would be willing to fly an airplane for them. DAVIS agreed and flew BARKER and an individual named SEGRETTI from Woodbridge Airport to Richmond, Virginia. A Cessna 310 aircraft was used for this flight. DAVIS thought that this aircraft was owned by some company or corporation. The group flew back to Woodbridge after an approximate stay of one half hour at the Richmond, Airport.

Approximately one week later DAVIS flew BARKER and MC CORD to Baltimore, Maryland, from Woodbridge Airport. The group returned to Woodbridge after picking up some boxes.

After the above flight to Baltimore, SCOTT paid DAVIS \$1500 for his services.

Thereafter, DAVIS flew BARKER and SCOTT from Woodbridge Airport to Baltimore, Maryland, and returned on the same day.

Approximately two weeks later, BARKER asked DAVIS if he would fly to Texas. DAVIS accepted and flew BARKER, MC CORD and another individual of apparent Cuban extraction from Woodbridge to Del Rio, Texas. A Cessna 310 aircraft was used for this flight. Two refueling stops were made between Woodbridge Airport and Del Rio, Texas. The flight arrived in Del Rio, Texas in the late morning hours, possibly around 10 AM or 11 AM. Upon arrival, BARKER, MC CORD and the other individual disembarked from the aircraft. Shortly thereafter DAVIS followed them from the aircraft to attend to some routine matters relating to the aircraft and the next flight. He then observed his airmen passengers seated in a Ford LTD automobile parked in the vicinity of the aircraft. Seated in the back seat of this automobile with MC CORD was an individual he recognized to be JOHN CONNALLY.

the former Secretary of the United States Treasury Department. Seated in the front were BARKER, the other aircraft passenger and one unidentified individual. Upon approaching the automobile, he was waved back in a manner indicating that his presence at the car was not desired. DAVIS returned to the aircraft and obtained a hidden camera device. He then went back to the vicinity of the automobile and took photographs of these individuals while they were getting out of the automobile.

DAVIS claims to have taken three camera shots of the above meeting and claims to have three negatives available at the house of his mother in Dallas, Texas. DAVIS also claims to have a flight log of this Del Rio flight.

DAVIS advised that his aircraft was on the ground in Del Rio for less than an hour. BARKER, MC CORD and the other passenger returned to the aircraft and instructed DAVIS to fly back to the Woodbridge Airport. During the flight back, DAVIS observed MC CORD opening a satchel which appeared to contain large sums of money. DAVIS expressed curiosity about the money and BARKER explained that there were certain people concerned about MC GOVERN's relations with the Cubans and that these individuals wanted to finance an operation whereby it would be insured that President NIXON got the facts about this situation.

DAVIS asked in reference to CONNALLY, "Wasn't that one of our great white fathers in the ear", and BARKER responded "Yeah!"

Within a few days after the Del Rio plane trip, SCOTT paid DAVIS another \$1500 for his services.

Shortly after the Del Rio plane trip, DAVIS and SCOTT entered on the premises of the Democratic National Party Headquarters located at the Watergate Hotel, Washington D.C. Entry was accomplished by SCOTT picking the locks to the doors of the Democratic Party Headquarters. DAVIS claims that he accompanied SCOTT in order to check out electronic transmitting devices that had been planted at various locations within the Democratic Party National Headquarters. SCOTT was knowledgeable

as to their specific location and pointed out some of these locations to DAVIS. DAVIS and SCOTT made several entries into the Democratic Party National Headquarters on different days for the purpose of checking out hidden electronic transmitting devices. DAVIS advised that during these entries, SCOTT also located other hidden electronic devices which did not belong to his group.

DAVIS advised that he was not involved in the burglary of the Democratic Party National Headquarters on June 17, 1972, since he had severed his connections with this group prior to that day. He stated that he learned through the media that MC CORD, BARKER and others were arrested in the Democratic Party National Headquarters at the Watergate Hotel on June 17, 1972. He advised that he was invited to go along on this specific trip, but declined because too many individuals were going to be involved and that therefore the chances of being detected were too great.

DAVIS advised that the electronic transmitters used by SCOTT's group operated on frequencies P1-165.7875 and P2-165.3750. He advised that two Kel Corporation units used in the bugging of the Democratic Party National Headquarters were model R-2, serial number 1185, and model T-2, serial number 674. DAVIS voluntarily furnished Special Agent RICHARD SLOAN a 6x9 sheet of paper which set forth the above frequencies and the serial numbers of the above Kel Corporation units. Attached hereto is a copy of the front and back of this sheet of paper furnished by DAVIS.

messages in her possession for DONALD HENRY SEGRETTI. This subpoena was issued by the Senate Sub-Committee on Administrative Practices and Procedures dated October 20, 1972, and signed by Senator EDWARD KENNEDY. HOLMES stated that she made the messages available to GALLAGHER, who copied this information contained on the messages and informed HOLMES that she would be summoned before the committee and required to bring the original messages with her. GALLAGHER further inquired from HOLMES if SEGRETTI was known to use any other name. HOLMES advised GALLAGHER that SEGRETTI uses no other name that she is aware of. GALLAGHER further inquired as to whether or not the Virginia Brady Answering Service had a client by the name of SIMMONS, to which HOLMES replied that they had no such client.

HOLMES went on to state that SEGRETTI had not called for his messages since October 16, 1972, which she considered unusual, because he normally obtained his messages on a daily basis, even when she believed he was out of town.

HOLMES advised that in the last two months, she has been deluged by television, radio, and magazine reporters in quest of the telephone answering service records of DONALD HENRY SEGRETTI, however, she maintained that she did not make this information available except upon the presentation of a subpoena specifically calling for this information.

On October 19, 1972, PIERCE MARTIN, Security Director, General Telephone Company, Santa Monica, California, telephonically advised that the General Telephone Company's Legal Department had received a subpoena dated October 13, 1972, requiring production of the telephone calls for DONALD HENRY SEGRETTI's telephone number, Area Code 213-821-9990. This subpoena was issued by the Senate Sub-Committee on Administrative Practices and Procedures which is chaired by Senator EDWARD KENNEDY.

MARTIN advised that the General Telephone Company had complied with the subpoena and furnished the telephone records to Senator KENNEDY's committee.

A review of the telephone records for outgoing local calls from the Beverly Wilshire Hotel, Beverly Hills, California, from Rooms 432 and 438 between January 7 and 11, 1972, and from Rooms 338 and 332 between February 18 and 21, 1972, revealed the calls at the times indicated below. Hotel records further indicate that Rooms 432 and 332 were occupied by GEORGE LEONARD during January and February respectively. Rooms 438 and 338 were occupied by HOWARD HUNT during January and February respectively. The telephone records for each day are kept in individual envelopes with that day's date written on the front of the envelope, and in most instances the slip of paper on which the outgoing telephone information is noted together with the room number of the calling party has a time and date stamp on the back. The asterisk next to the telephone number indicates that the time and date stamp indicate the call was made on the day previous to the date appearing on the envelope containing the record of outgoing calls.

On 12/21/72, Supervisor JOHN RUHL, Washington Field Office, telephonically requested the below-listed information, which was furnished to him by return telephone call. This information was requested inasmuch as consideration was being given to THOMAS JAMES GREGORY being interviewed by a Departmental attorney in the near future.

On 12/21/72 checks were made at the residence of THOMAS JAMES GREGORY, 473 North 600 East, Provo, Utah, and it was determined he had departed his residence at approximately 3:00 am, 12/21/72, to return to his home in New Jersey for the Christmas holidays. GREGORY is expected to return to Provo, where he is a student at BYU, within two or three days following 1/1/73. It is noted that GREGORY, when interviewed 12/19-20/72, provided his home residence as 12 James Place, Madison, New Jersey, but a review of the current BYU Directory reflected GREGORY's home address as 27 Britten Road, Green Village, New Jersey.

Title: JAMES WALTER MC CORD, JR.;

BURGLARY, DEMOCRATIC NATIONAL
COMMITTEE HEADQUARTERS,
WASHINGTON, D. C.,
JUNE 17, 1972;
INTERCEPTION OF COMMUNICATIONSCharacter:
Synopsis: THOMAS JAMES GREGORY, Brigham Young University student, Provo, Utah, born 10/5/47, Morristown, N.J., interviewed 12/19-20/72 and advised he was contacted by letter from HOWARD HUNT during 2/72. HUNT provided GREGORY with round-trip United Air Lines ticket from Salt Lake City, Utah, to Washington, D. C., and \$50.00 cash. On 2/21/72, GREGORY traveled to Washington, D. C., and met with HUNT. HUNT hired GREGORY to work as a volunteer for Presidential candidate MUSKIE, and GREGORY was advised to report to HUNT and was paid \$175.00 per week. GREGORY worked for both MUSKIE and McGOVERN campaigns and reported to HUNT during Spring, 1972. On about 5/27/72, GREGORY attended meeting at some hotel near 15th and K Streets N.W., Washington, D. C. Present at meeting were HUNT, JAMES MC CORD, a third man to whom HUNT seemed responsible, a locksmith of Spanish descent, and about 3 or 4 other men, names unknown. Discussion at meeting dealt with possible "bugging" of McGovern Headquarters, 4th and D Streets, S.E., Washington, D. C. GREGORY learned at this meeting that MC CORD had tried unsuccessfully a week or two earlier to "bug" McGovern's Headquarters. GREGORY discontinued association with HUNT on about 6/15 or 16/72. While employed by HUNT, GREGORY received weekly salary of \$175.00 from HUNT and signed written receipt each time.

DETAILS:

On December 19, 1972, Mr. GORDON BIBBINS, 6B-346 Wymount Terrace, Brigham Young University (BYU), Provo, Utah, was interviewed by SA LOFTIS J. SHEFFIELD in an effort to determine if he had any contact or association with EVERETTE HOWARD HUNT, JR., or any knowledge of the burglary of the Democratic National Headquarters, which occurred June 17, 1972, at Washington, D.C. BIBBINS advised he had not had any contact with HUNT, nor did he have any knowledge in regard to this matter, but he was aware that his former roommate, THOMAS GREGORY, a BYU student, had worked in Washington, D. C., during the Spring of 1972 for one of the Democratic Presidential candidates and he might possibly be in a position to furnish some information regarding this matter.

Mr. THOMAS JAMES GREGORY, college student, age 15, born October 5, 1972, at Morristown, New Jersey, presently residing at 573 North 600 East, Provo, Utah, advised as follows:

He has the home address of 12 James Place, Madison, New Jersey, and will be at that address from December 21, 1972, to January 5, 1973.

On February 9, 1972, GREGORY learned through a friend, ROBERT FLETCHER, age about 28, 25 Dorchester Road, Summit, New Jersey, that there was a possible available job in Washington, D.C., at Democratic Headquarters, working for Presidential candidate MUSKIE and feeding information to the Republican Party. He told FLETCHER that he would be interested. FLETCHER indicated the job would pay about \$175.00 a week.

C.C. Within about a week GREGORY received two letters at his residence, 547 East 600 North, Provo, Utah. One letter was signed EDWARD WARREN and the other was signed EARL WARREN. In one letter it was stated the writer was interested in meeting GREGORY and that he would be sending him money, as well as a round-trip plane ticket from Salt Lake City, Utah, to Washington, D.C. GREGORY later learned that the sender of the two letters was one and the same person and that this person was identical with HOWARD HUNT. In one of the letters GREGORY was told where to meet the sender of the letter on about February 21, 1972. The letters were postmarked Washington, D.C., or from that area. It is believed that in the second letter a round-trip United Air Lines ticket from Salt Lake City to Washington, D.C., was enclosed. On approximately the same day that this letter was received, \$50.00 was received by GREGORY at Western Union, Provo, Utah, in cash. He did not see who was listed as the sender but assumed it was HOWARD HUNT, a representative of the Republican Party in Washington, D.C.

No telephone calls were received from HUNT, but GREGORY did receive about two telephone calls from ROBERT FLETCHER about one week after he was first contacted by FLETCHER, which would have been about February 15, 1972. GREGORY

did not ever talk to HUNT while GREGORY was in Utah. During the above two telephone calls, FLETCHER informed GREGORY that he had been in contact with HUNT and that it appeared GREGORY would get the job. These two telephone calls were received by GREGORY before he received the second letter mentioned above.

On February 21, 1972, GREGORY traveled by United Air Lines from Salt Lake City to Washington, D.C., where he arrived at Dulles Airport. He was not met at the airport. He traveled by bus to downtown Washington, D.C., and took a taxi to a hotel, possibly the Park Central Hotel, where he registered. In one of the letters mentioned above he had been given a telephone number to call. The afternoon of his arrival in Washington he called that number and reported his arrival to a man later determined by GREGORY to be HUNT.

That evening HUNT visited GREGORY at the hotel where GREGORY was staying. HUNT was a white male, age about 50, about 5 feet 10 inches tall, with medium build. He said that BOB FLETCHER had recommended GREGORY to him. He asked GREGORY if he had any qualms about working as a volunteer for Presidential candidate MUSKIE and reporting to him (HUNT). GREGORY told him that he did not have any qualms, although he actually did have some. GREGORY assumed HUNT was somehow representing the Republican Party. HUNT instructed GREGORY to go to the Muskie Headquarters and offer his services as a volunteer. HUNT told GREGORY that he would receive \$175.00 per week as salary if things worked out.

The following day GREGORY went to the Muskie Headquarters and offered his services as a volunteer, and his services were accepted. He reported that information back to HUNT.

GREGORY returned to Provo, Utah, on February 24, 1972, where he arranged at Brigham Young University to get credit in Political Science classes for a semester of volunteer work in connection with the presidential political campaign in Washington, D.C. On February 29, 1972, he left Utah and flew to Washington, D.C., via United Air Lines. Meanwhile, he had received about \$80.00 in cash at Western Union, which had been sent by HUNT or his office. Also, he had received a one-way United Air Lines ticket from HUNT.

SU 139-44

On March 1, 1972, GREGORY went to work as a volunteer at the Muskie Headquarters at 1972 K Street N.W., Washington, D.C. He worked at that headquarters up until April 14, 1972, and during this period of time he reported to HUNT about once a week, giving HUNT general information regarding MUSKIE's campaign.

Within a few days prior to April 14, 1972, HUNT requested GREGORY to go to the headquarters of Presidential candidate McGOVERN, as it appeared MUSKIE was out of the presidential race. On about April 14, 1972, GREGORY went to McGOVERN's headquarters and volunteered his services, which were accepted.

On about May 27, 1972, after GREGORY had worked about six weeks at the McGovern Headquarters, GREGORY attended at some hotel at about 15th and K Streets N.W., Washington, D.C., in Room 601 or 801, a meeting. At the meeting were HUNT, JAMES McCORD, a third man to whom HUNT seemed to be responsible (white, male, about 40 years of age, with black hair, about the same size as HUNT), as well as a locksmith, who appeared to be of Spanish descent, and about three or four other men, whose names are unknown. These three or four men were apparently the men who were later arrested during the burglary of the Watergate Hotel in June, 1972, as GREGORY recalled seeing their photographs in the newspaper following their arrest. At this meeting HUNT mentioned that the group had two walkie-talkies, which were worth about \$2,000. During the meeting there was a discussion about the possible "bugging" of McGovern's Headquarters, which were at 4th and D Streets S.E., Washington, D.C. There was no discussion about "bugging" the Watergate Hotel, although it was known that part of McGovern's Headquarters was possibly to be moved to the Watergate Hotel. There was a discussion about entering at night or daytime McGovern's Headquarters at about 4th and D Streets, Washington, D.C. McCORD had tried unsuccessfully a week or so earlier to "bug" McGovern's Headquarters, when McCORD walked through the headquarters at about 4th and D Streets during daytime hours.

The following information was furnished by THOMAS JAMES GREGORY on December 20, 1972:

At the above meeting there was no discussion about "bugging" the Watergate Hotel. The discussion was only about

SU 139-4

"bugging" the headquarters of McGOVERN at about 4th and D Streets S.E. At the meeting it was mentioned that there was some other "job" to do. It was not known to GREGORY what was meant by the other "job."

At the meeting it was arranged that GREGORY would stay late about the following day, May 28, 1972, at McGovern's Headquarters, and that when he left, he would advise HUNT whether or not anyone was still at the headquarters. When GREGORY left McGovern's Headquarters at about 4th and D Streets S.E., there was still another man at the headquarters and he so informed HUNT by telephone.)

As GREGORY was leaving the area of the headquarters he saw three of the men who were at the meeting mentioned above. It is believed that two or possibly three of the men were Spanish looking. GREGORY told the three men that there was someone still in the building, and they left the area immediately.

On the following morning of about May 29, 1972, GREGORY observed there was an armed guard from the Burns Detective Agency at the McGovern Headquarters at approximately 4th and D Streets S.E. He later learned the guard had been placed there because of difficulty with a mentally unbalanced man who had been in the headquarters and causing trouble. Thereafter there apparently was guard duty twenty-four hours a day. To GREGORY's knowledge, the building was never "bugged."

GREGORY left Washington, D.C., May 31, 1972, and was out of town on personal business until about June 6, 1972. He worked about two or three more days at the McGovern Headquarters and decided he would not stay any longer because it was against his conscience to become involved in anything other than just reporting information to HUNT. Even though he would never have done anything directly to help on any "bugging," he did not feel right about being connected in any way with any such plans. He was hired to observe activity and not to do other things. Therefore, he did not work at McGovern's Headquarters after Friday, June 9, 1972. He met HUNT on or about June 15 or 16, 1972, at the Roger Smith Hotel, Washington, and formally terminated his employment with HUNT.

SU 139-
[redacted]

During the period of his employment, beginning in February, 1972, he received a weekly salary of \$175.00 from HUNT in cash, and he signed a written receipt each time. He usually met HUNT in the lobby of the Roger Smith Hotel at about 17th and Pennsylvania Avenue N.W., Washington, D.C. At these meetings he would inform HUNT of what he had observed at the Muskie or McGovern Headquarters. Usually the information related to scheduled talks and subject matter of talks to be given by the candidates, and the information also related to general information concerning the campaign activity,

GREGORY has no knowledge of the "bugging" or burglary of the Watergate Hotel, Washington, D.C.

ADMINISTRATIVE DATA:

PETER SHAW, 15010 Cordell Avenue, Woodbridge, Va., telephone 670-4900, Supervisor of Long Lines for American Telephone and Telegraph Company, Washington, D. C., at 10:15 p.m., 10/19/72, advised he received a call from an individual who identified himself as a reporter for the New York Times, Washington Bureau, by the name of JOHN CREWS DON. CREWS DON said he had information that DONALD SEGRETTI of California had called him at the above 670-4900 number and wanted to know what SHAW knew about SEGRETTI.

SHAW said he questioned the reporter as to how he knew SEGRETTI was supposed to have made a call to him since telephone records are not public. He said the reporter stammered at this question but never directly answered same. SHAW said he told the reporter that he was not sure he was a legitimate reporter and never discussed things over the phone with persons he was not acquainted with. CREWS DON said his office phone was 293-3100 (this is the number for the New York Times, Washington Bureau) if SHAW wanted to talk with him.

SHAW said he is not acquainted with DONALD SEGRETTI and has never received a phone call from him. He also checked with his wife who is the other person using the home phone and she had never heard of SEGRETTI. He said the only call they have received from California within the past several months is one from HERB SCHIMMEL, Villa Park, California, telephone area code 714, 637-5852 who was interested in buying a pedigreed cat.
